

**Data Sheet ref: NT-9511-2 BLUE POLYESTER & SILICONE
TAPE**

Blue Polyester with silicone adhesive system is excellent for powder coating and other masking applications where elevated temperatures are present.

It will give fine line definition, clean tape removal, good conformability, abrasion resistance, no shrinkage at elevated temperatures and great chemical resistance.

Temperature Resistance	180°C
Backing	25 Micron Polyester Film
Adhesive	Silicone
Thickness	38 microns
Total thickness	63 microns
Breaking Strength	8.9kg per cm
Elongation	90%
Adhesion to steel	0.39kg per cm
Dielectric strength	6500 volts

Important Notice

All GSAP products are subjected to careful quality control throughout the manufacturing process and are warranted to be of merchantable quality and free from manufacturing defects. Published information concerning GSAP products is based upon research, which the Company believes to be reliable, but some information does not constitute a warranty. Because of the variety of possible uses for GSAP products and continuing development of new uses, the purchaser should carefully consider the fitness and performance of the product for each intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential damages. All specifications are subject to change without prior notice.
