

ESSENTIAL BRICK ACID CLEANER

5L **25L** SKU: SC4U_ERC_BRI05 / SC4U_ERC_BRI25

DESCRIPTION

Professional brick & masonry cleaner
Highly effective for removing builder's mess

SC4U ESSENTIAL BRICK ACID CLEANER effortlessly removes cement & mortar residues. It is a high performance formula for cleaning all types of acid resistant surfaces, both indoor & outdoor.

It's powerful, fast-working formula dissolves and removes surface residues such as mortar and cement, efflorescence, encrusted and engrained dirt, as well as calcium & limescale deposits. Apply neat or diluted up to 1:5.

Can be used indoors and outdoors after the installation process or during construction. All surfaces must be acid resistant surfaces such as ceramic tiles, porcelain, brick, clay and quarry tiles, terracotta, concrete and many types of natural stones.

DIRECTIONS FOR USE

Before use, remove any loose debris from the work surface and ensure you have adequate personal protection, i.e gloves, suitable protective eye-wear, FFP3 class mask & clothing.

- Essential Brick Acid Cleaner is to be used neat or diluted up to 1:5 with clean water - always perform a small test area to determine suitable dilution rate and dwell time.**
- First wet the surface, then apply **Essential Brick Acid Cleaner**, neat or diluted with water up to 1:5, dilution rate will be dependent on the extent of the contamination. **Not suitable for acid sensitive surfaces such as enamel, zinc, chrome, stainless steel, polished marble and limestone, lacquers, etc. If using Essential Brick Acid Cleaner indoors ensure good ventilation during and after use, and ensure that no vapours remain in the room.**
- After the application is completed, rinse thoroughly and safely with clean water to neutralise and remove the cleaner. If the problem persists, it may be necessary to reapply the solution diluting to a stronger mix and working in smaller areas.

Please Note: Always try product on-site in an inconspicuous area prior to use. Avoid contact with clothes, material and fabrics as this will cause damage. Keep away from carpets and soft furnishings. Always wipe up spillages and rinse thoroughly with cold water.

COVERAGE

10 to 40m² per litre.

Depending on the kind and stubbornness of the deposits.

USAGE GUIDELINES

Dwell Time	Applications/Coats	Application Method	Dilution
10-15 mins	1-2 applications	Brush/Sprayer/ Roller	Up to 1:10
