

# ESSENTIAL SEALER'S GOLD MATT FINISH

**1L** **2.5L** **5L** SKU: SC4U\_ERS\_SGM01 / SC4U\_ERS\_SGM250 / SC4U\_ERS\_SGM05

## DESCRIPTION

SC4U ESSENTIAL SEALER'S GOLD MATT FINISH is a professional, all-purpose sealer matt look finish for all types of natural internal stone - the gold standard your stone deserves.

SC4U ESSENTIAL SEALER'S GOLD MATT FINISH is a highly effective multi-purpose indoor stone sealer. It has been developed to offer excellent sealing and oil & stain resistance to ALL types of indoor stone surfaces, including slate, limestone, granite, quartz, sandstone, travertine, marble and more. SEALER'S GOLD saves you time and money, one sealer does it all! Essential Sealer's Gold Matt Finish is a powerful impregnating sealer suitable for most internal porous textured stone and masonry surfaces. Not recommended for use on highly polished, ceramic/glazed or non-porous surfaces.

## DIRECTIONS FOR USE

Before use, remove any loose debris from the work surface and ensure you have adequate personal protection, i.e gloves, suitable protective eye-wear, face mask & clothing.

- NOTE: Following the instructions below, perform a small test application on-site in an inconspicuous area prior to use. This will indicate the suitability and effectiveness of the product for your surface. If unsuitable for your requirements DO NOT PROCEED; contact us to return the product.**
- Before application the surface must be completely clean and dry, apply generously and evenly with a low pressure sprayer, roller, natural fibre brush or sponge, remove any excess sealer with dry cloth after 20-30 minutes.
- Apply a second application approximately 45-60 minutes repeating the process. It will take at least 24 hours before the product will offer full protection. Until this has happened, keep the surface free from water and oil spills, as stains may occur before fully cured.

**Please Note:** Areas not to be sealed must be protected with masking materials. It is strongly recommended when using coloured grouts that a stain test is completed before proceeding.

## COVERAGE

Up to 30M<sup>2</sup> per litre.  
Dependant on porosity of surface. Check the surface after application to ensure full effectiveness of impregnator.

## USAGE GUIDELINES

Drying Time	Applications/Coats	Application Method	Dilution
45-60 mins	2 coats	Brush/Sprayer/ Roller/Sponge	Undiluted
